

BALM OF GILEAD FARM

Wholesale Price List - Per Item

At the Balm Of Gilead Farm, we grow rare biblical plants and produce a wide range of products from them, including essential oils, incense, soaps, and more.

We are the only place in the world that cultivates some of these plants, including the recently revived Balm Of Gilead, grown on the northern banks of the Dead Sea for the first time since Biblical times.

We invite you to take a look at some of our unique, pure and exclusive products, which can be found nowhere else in the world. Our products come with exquisite packaging as well as an explanation of the farm and the specific product purchased.

You now have an opportunity to bring home what was once used in Biblical times as an expensive perfume, an oil to anoint kings, a medication to heal the sick, and burned as incense in the Temple.

Truly, a gift fit for a king.
